

# NICHOLAS KAZAN

## EDUCATION

---

**Bachelor of Computer Science, Honours**  
Carleton University, CGPA: 10.29/12.00

September 2016 - June 2020

## EXPERIENCE

---

**Programmer Analyst**  
*Government of Canada*

May 2018 - August 2018

- Fixed ongoing client issues leading to a smoother experience in our Fall Release
- Created a database to organize all current client requests which improved efficiency across my department
- Reviewed and optimized code written by seniors

**Sales Specialist**  
*Best Buy*

April 2017 - July 2018

- Trained new employees that were hired for seasonal/part-time
- Scored within the top 5% of my location's sales numbers
- Resolved technical issues relating to customer products

## PROJECTS

---

**Instagram Scraper**  
*Python and Azure*

February 2019

- Scraped a chosen user's profile on Instagram
- Parsed out recent comments on a user's photo
- Ran the comments through Azure to produce a score based on text positivity

**Measure App**  
*Swift and ARKit*

September 2018

- Utilized Apple's ARKit to design a measurement app
- Actively scans your environment with visible feature points
- Calculates the distance between two points on a horizontal/vertical plane

## SKILLS

---

**Preferred** Python, Swift, Java, Git  
**Familiar** Javascript, React Native, Node, SQL, Octave, Machine Learning
