## EXPERIENCE

**SHOPIFY** // Software Developer Intern, Marketing Activities // SEPT 2019 - DEC 2019

- > Working on Shopify core to make marketing better for everyone!

**SHOPIFY** // Software Developer Intern, Marketing/Channels (Facebook) // JUL - AUG 2018, JUL - AUG 2019

- > Developed feature for reporting Facebook ad analytics to Shopify with Ruby on Rails.
- > Worked closely with Facebook to build onboarding flow for Instagram Checkout.
- > Documented and built components for moving to a new authentication system for internal tools.
- > Made multiple apps GDPR compliant, impacting over 50,000 merchants.

**HATCH CANADA** // Software Developer // AUG 2018 - JUL 2019

- > Designed new CS curriculum with a focus on self-learning, targeted at high school students. Led engineering to build a supporting web application using React, Django and MySQL.
- > Worked on features and bugs for the existing platform and added end-to-end testing with Cypress.

**LAKERIDGE RESORT** // Ski Instructor // JAN - MAR 2017

## AWARDS AND HONOURS

**GOOGLE CODE-IN GRAND PRIZE WINNER** // Google Open Source + Sugar Labs // JAN 2018

- > Among fifty winners of over 3500 contestants for two months of open source contribution to One Laptop per Child software. Worked on GTK apps, a Linux desktop environment, and a web application.
- > Merged 27 pull requests and committed 2636 lines of code in seven weeks, along with work on translations and documentation.

**SPEAKER** // Wolfram Technology Conference // OCT 2017

- > Spoke about the applications of Wolfram Technologies and demoed a smart note-taking app

**F8 SCHOLARSHIP RECIPIENT** // Facebook // 2019

**GOOGLE CODE JAM TO I/O SCHOLARSHIP RECIPIENT** // Google // 2018
